5. Weather & Fade Resistant
6. Unique, Easy Installation
7. Available in a Variety of Colors, Diameters and Lengths
8. Graphics Available- Corporate Identification, Messaging

Which Size Do You Need?

If you are unsure of the outside diameter of the existing steel pipe post, using a flexible tape, measure completely around the outside of the steel post for the circumference and divide the circumference by 3.14 to determine the outside diameter. Refer to the chart to determine which LDC Bollard Guard size you require...

Bollard Guard	Bollard
5" I.D.	3.5" O.D. - 4 7/8" O.D.
7" I.D.	6.0" O.D. - 6 7/8" O.D.
9" I.D.	7.5" O.D. - 8 7/8" O.D.
